The American Association of University Women (AAUW), founded in 1881, is the nation's leading organization advocating equity for women and girls. Our national membership of 170,000 members and supporters seeks to advance equity for women and girls through advocacy, education, philanthropy, and research. People of every race, creed, age, gender, sexual orientation, national origin, and level of physical ability are invited to join.

AAUW California began when the San Francisco branch was established in 1884. By 1921, with thirteen active branches in the state, branch leaders saw a need for a statewide organization. The constitution for AAUW California was approved in October 1921.

The American Association of University Women (AAUW) advances equity for women and girls through advocacy, education, philanthropy, and research. In principle and in practice, AAUW values and seeks a diverse membership. There shall be no barrier to full participation in this organization on the basis of gender, race, creed, age, sexual orientation, national origin, disability, or class.
