## About AAUW CA

---

The American Association of University Women (AAUW), founded in 1881, is the nation's leading organization advocating equity for women and girls. Its national membership of 80,000 seeks to advance equity for women and girls through advocacy, education, philanthropy, and research. People of every race, creed, age, gender, sexual orientation, national origin, and level of physical ability are invited to join.

The young organization's presence in California began when San Francisco branch was established in 1884. By 1921, with thirteen active branches in the state, branch leaders saw a need for a statewide organization. The constitution for AAUW California was approved in October 1921.

AAUW California is the state's most active and diverse organization for women with nearly 12,000 members in 125 branches, plus over 4,000 members-at-large.

The American Association of University Women (AAUW) advances equity for women and girls through advocacy, education, philanthropy, and research. In principle and in practice, AAUW values and seeks a diverse membership. There shall be no barrier to full participation in this organization on the basis of gender, race, creed, age, sexual orientation, national origin, disability, or class.
