# Facebook Actions

- “Like” other pages - this will add content to your feed.
- Create a Post
- Create an Event
- Add to your Stories - visible for 24 hours
- Create Groups

# Facebook Basics

You have to have a personal Facebook page to start. You'll be adding a "page" to your account.

Page or group? Start with a page.

Facebook Page	Facebook Group
Gives you a public presence. Unlike your profile, Facebook Pages are visible to everyone on the internet by default. You, and every person on Facebook, can connect with these Pages by becoming a fan and then receive their updates in your News Feed and interact with them.	Groups allow people to come together around a common cause, issue or activity to organize, express objectives, discuss issues, post photos and share related content.  Can be Public, require administrator approval for members to join or keep it private and by invitation only. Like with Pages, new posts by a group are included in the News Feeds of its members and members can interact and share with one another from the group.

# Ideal Facebook Post

- Is a link
- Is brief - 40 characters or fewer
- Is timely and newsworthy

Focus on QUALITY over quantity.

- Your content needs to stand out for the right reasons.
- If it's boring or offends your audience, you won't get the engagement you need to connect with more people (no matter how often you post).

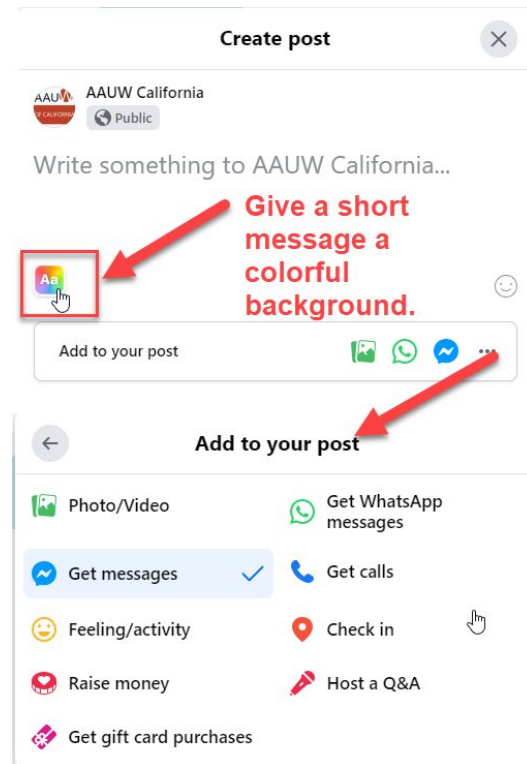

# Facebook Post Ideas

- Use emotional words to create connection and grab attention. Tongue-tied? Use a [thesaurus](#).
- Write your posts as a Facebook graphic to gain attention
  - Select the colorful box icon at the bottom of your Facebook post box and choose the background you like best.
  - Ideal for short posts.

# Facebook Post Frequency

- Experts suggest posting once a day (or around 5x a week.)
- Is more better?
  - Businesses with >10,000 followers saw increased number of clicks when posting more than once per day.
  - Businesses with <10,000 followers received 50 percent fewer clicks per post when they published twice per day.
- Can't commit to 5x/week?
  - Brands that posted just 1-5 times per month, saw their engagement nearly double!
- Schedule your posts
