

## Notifying Students About Tech Trek Status

Every student who submitted an application and essay, whether interviewed or not, must be informed of her status. Those not chosen need to be informed ***at the same time*** as those who were chosen in order to avoid uncomfortable situations at school and hurt feelings. This is important.

After you submit the list of selected and alternate campers the system will generate the appropriate notification letter including links to both parent and camper Agreement Forms.

Camper registration can not be completed until all camper and parent agreement forms are received.

### Sample Letters

You will find sample letters in the folder “C. Camper Selection.”
